

Kystdesign ROV Deployed Gas Sampler

Description

The Kystdesign ROV Deployed Gas Sampler is designed to measure gas flow and also to bring back gas samples from a subsea leakage.

The lower part of the funnel can be separated from the gas sampler, in order to get better access in confined spaces.

The gas sampler is designed to be operated by a work class ROV.

Key features

- Measures gas flow
- Retrieves gas samples
- Can be operated in confined spaces.

What's Included

- Measuring Tube (0.5l/2l)
- Funnel
- ROV Handle
- Sample Cylinder (500m³)

Options

- Additional Sample Cylinders

SUBSEA SOLUTIONS THAT CHALLENGE CONVENTIONAL THINKING.
